## DEPOSED KLAN PASTOR FIRED BY PRESBYTERY

McGehee, Ex-Methodist, Said to Have Presented Forged Letter to Church.

Charles D. McGehee, former pas-tor of Haven Street Methodist Church, South, in Carondelet, and former "Grand Titan" of the Ku Klux Klan in East St. Louis, was moved from the ministry of the Presbyterian Church by action of the Presbytery of Western Texas, at a called meeting in San An-

onio, last week.
According to the Rev. Dr. L. E. Selfridge, home missionary super-intendent of the Western Texas Presbytery, the action was taken on McGehee's acknowledgment that he had forged a letter purporting to be from the Presbytery of Southern Illinois. The Presbytery at San Antonio thereupon voted to annul the action which it had tak-en in receiving McGehee last June.

The action at San Antonio came a little less than three years after odist Episcopal Church, South meeting in the parlors of Centenary Church here, expelled McGehee not only from the ministry, but also from membership in the church He was charged with "immorality namely, falsehood and bearing false witness."

The charges heard here arose rom McGehee's differences with Bishop W. F. McMurry, presiding over the St. Louis Conference. The Bishop had ordered the then pastor to cease using Haven Street Church as a recruiting place for the klan, and to devote more time to the church and less to Ku Klux Klan activities. In an ensuing disoute, McGehee charged that the Bishop struck him. He got a Poice Court summons against ' the Bishop, but this was withdrawn. His statements, contradicted by Bishop McMurry and other isters were the basis of the charge

of falsehood. Following' McGehee's expulsion from the Methodist body, he was discharged by the War Departmen ited States Army Reserve Corps ood standing.

HOW TO MAKE GOOD SPELLERS. From the American Review of Reviews for

THE spelling bee, the principal form of amusement at the old log schoolhouse. was joined with the widespread interest created in the columns of a city newspaper. For weeks the Oklahoma City Times carried news stories and word lists. Practical and appeals were made to parents for cooperation. Regular Ayres lists were used, extra time was devoted to spelling in the schools, but each pupil worked hard at home in order to raise the percentage for his or her grade. The national average of spelling ability for children, based on the which are the most widely known in the United States, is 79 per cent correct for the second, third, fourth and fifth grades, and 73 per cent for the sixth. . The spelling averages of the winning grades in the city-wide Spelling Bee ranged from 99.9 to 98.6 per cent correct. The average spelling ability of each of the 10.889 city school children participating in the 1926 bee was 89.2 per cent. This is 12,5 per cent higher than the national norm of 76.7 per cent All grades were given four weeks time to learn the words for their grade. 'At the 50 words selected from those studied by each grade were sent to all schools on the same day. All the students in each grade were required to take the test, so that the results in no way represent only the efforts of the best spellers.

#### A RICH MAN'S SYSTEM From the Doland (S. D.) Times-Record.

THE United States Senate used to be I considered a dignified body of statesmen, but it must be rapidly slipping, for its chief occupation seems to be investigating alleged crooked acts of its members. This condition will continue as long as we are working under the present primary system. Under the old convention manner of selecting candidates, a man had to have a good record to make the grade. Now, all that is required is plenty of cash. The primary is a rich man's system.

#### BRITAIN AND THE DOMINIONS.

From the World's Work.

U NDER the strain of a war that was be-ginning to grow wearisome, an Imperial War Cabinet was formed, and a year later this body admitted that the Dominions could treat directly with the Prime Minister. Instead of through the Colonial Office. The very existence of that Emperial War Cabinet marked the changed relations between motherland and Dominions. Thus in 1920 these latter all insisted on signing separately the Treaty of Versailles. each successive Imperial Conference has been heralded as about to recognize the ominions' independent statehood. While the Empire still seems doing the imperial business as usual, the Dominions are in fact nearly as independent as we are, and have in fact immigration restrictions (even for Englishmen) somewhat reminiscent of our own. Australia and New Zealand, to be sure, seeing in one glance their own unoccupied lands and the swelling populations of Japan and China, whistle to themselves that Britannia rules the waves and that the empire is a unit. Nevertheless, the Dominions have not hesitated to vote against Britain in the League of Nations, and at the Imperial Con-ference in October they objected most violently to British commitments at Locarno, even though these treaties stated they were not binding on the Dominions unless signed by them. Does all this mean that the next Imperial Conference will really mean revolt, that the British Empire is in truth falling apart? It does not. Relations between Downing street and the Dominion capitals are undoubtedly changing: but there is no more chance that the Dominions will abandon their connection with Great Britain than that they will cease to speak

no scrubbing-no boiling

MILLICNS of women are spreading the good news about Rinso, the granulated laundry soap!

Neighbors tell one another. Thousands write letters like those shown at the left. And these letters prove, better than anything we could say, that safe Rinso suds soak clothes whiter than you could rub them - and end the hard work of washday!

No scrubbing-no boiling-all you do is soak and rinse-and the clothes are on the line hours earlier! Even the most soiled spots become snowy with just a tiny rub or two.

Read the letters at the left. They're just a few of many received from women right around here. Perhaps some of them are your neighbors. Truly, as one woman says, "I think every woman in town must be using Rinso now-so many are talking about it."

Try Rinso, just once, and you'll never touch a washboard again! See how it softens even the hardest water, how it saves hands and clothes. Your grocer or department store has Rinso. Follow the easy directions on the package.

**Are Worse Than Alcoholics** A CO-LONIC is a person afflicted with bacilli and poisonous matter in the colon. He is constipated and intestinal toxins seep into his blood stream. Doctors say almost 9 people out of 10 are afflicted on account of modern living conditions. The CO-LONIC drunkard is sometimes harder to live with than the alcoholic drunkard. He fusses with his wife, cannot get along with his fellow-workers, has fits of depression, blues. Or he may feel dull and lazy. Usually some condition such as sallow skins, biliousness, frequent colds, nervousness, rheumatism, etc., assails him. Get rid of constipation. Drive the bacilli from your colon. There is a safe dependable CO-LONIC treatment-entirely vegetable and non-habit forming. It is Natures Remedy (NR tablets). Its action is thorough but mild-with none of the griping and nauseating effects of other cathartics and physics. Make a five day test. See the poisons leave your system— your tongue clear up. Then note how you feel. At all druggists in a handy 25c box.
